

Garden Club

Moderators: Ms. Fuhrmann and Ms. Iannone
Grades K-8

Tends the school butterfly garden, the children's discovery garden, the Academy sign island and the beds at the front entrance. We plant, weed, water, mulch and compost! During the winter we engage in activities such as starting seeds, making planters, bird feeders, etc. Children keep a journal every week, recording weather conditions and garden progress. If there is time, we read a garden related story.

Meets in the art room, after school on Tuesday from 3:00 to 4:00PM
