

TOWN HALL MEETING - BUILDING PROJECT: Bulletin Announcement 5/12/2019

Fr. Tatro has been moved in the direction of needing to care for our beloved parish church building. All buildings need continual upkeep and care. You all have faithfully provided that care and have made upgrades over the years. Now it is time to hear from you on what we should do to care for our church building, explore possibilities of how to improve on what we have for the benefit of future generations, and ways to better provide for members of our parish community.

Fr. Tatro is proposing that we consider three options for our church building that include a comprehensive renovation of the current building, an addition to the building, or building a new church in which all options would accommodate the identified needs.

The scope of one of the above projects will be determined as we come together to discuss, explore options, and evaluate our needs and desires for our future. To begin this process, please join Fr. Tatro for town hall meetings on Sunday, May 19 @ 6:30 PM and Tuesday, May 21 @ 6:30 PM in the parish center. Fr. Tatro will present on identified needs the process moving forward. All are welcome to either or both town hall meetings. Notes will be taken live on the projected screen so that all will know their input has been received for consideration. Paper for written input will be provided for any who may not wish to speak publicly. Prayerfully consider attending one of these town hall meetings so that your voice is heard and I can hear the wisdom that you have to offer.
