3. Students are required (and will be graded on) presentation skills and preparedness

II Overall Expectations

I have high expectations for all my students. I expect each student to be prepared for class every day, as you expect me to have lessons prepared for your student. If at any time, a student needs additional help, he or she needs to ask. I am available to help on Monday-Thursday for 30 minutes after the school day has ended. Student success is dependent on study and review. There is homework every day in my classes. **If there is no written homework, it is expected that students will review the material covered in class that day.** Any work not completed that is reviewed during class time or received after I have handed back corrected copies will not be accepted for credit. Please refer to the handbook for the grading policies. I do not accept excuses for homework or reading not being done because of sports, music or other extra-curricular activities. Education should be the top priority. Please contact me by email with any questions or concerns at any time.

Thank you for the opportunity to teach your student,
Mrs. Loken
