

Now more than ever, your generosity can impact the future of so many St. Monica students.

A Message from Father Guadagnoli . . .

Greetings! We are truly blessed at St. Monica with our parishioners, our families, and our benefactors who believe in Catholic education. Our Catholic Schools were created to assist parents, who are the primary educators in the faith, in carrying out their responsibilities in the formation and education of their children. As a parish, each of us has an obligation to assist in the ministry of Catholic Education and in providing opportunities for our students to have a Catholic education. Your contribution to our GAP campaign will go a long way in helping a child to have a place as a student in our St. Monica Catholic School. May God reward you for your generosity and for your commitment to the value of Catholic education. In Faith, Hope, and Love.

A Message from President Trudell . . .

Our 2020 GAP campaign is rooted in Faith, Hope and Love. United in the hope that we can provide a Catholic education for each child that wishes to be a Bearcat. Your commitment to the GAP campaign helps us to provide an environment that is grounded in Jesus's teaching through the gospel values and virtues, partnering with an excellent, motivating and challenging academic program. Our GAP goal for 2020 is \$225,000. This year, to help us enhance our learning program, funds will be allocated to our newest initiative, STEM education. While GAP funds are critical to fund the operations of the school, additional funds raised above our goal will be directly invested into our STEM education program for Fall 2021. Each and every Bearcat at St. Monica is enveloped daily with the love of Christ. These children are the future, the future of our church, our local and national communities, they are our HOPE. Your gift makes a difference in preparing each child to be the light of Christ.

The Importance of STEM

STEM education allows students to apply science, technology, engineering, and mathematics in situations that make connections between the classroom and the real world. St. Monica students are currently exposed to STEM concepts in their homeroom and certain subject area classes.

Future funding for increased STEM initiatives will allow for the creation of a dedicated classroom on campus and updated, state of the art materials so that students can meet on a regular basis to explore these concepts in more depth and with greater frequency.

Pledge Form

We hope you will prayerfully review a pledge amount listed below. Please [click here](#) to make your pledge. Our goal is 100% participation. As always, we need your prayers. Thank You!

PLEDGE AMOUNTS

- One Tuition \$ 8,425
- Fill 3 GAPS \$ 3,420
- Fill 2 GAPS \$ 2,280
- Fill 1 GAP \$ 1,140
- Fill 1/2 GAP \$ 570
- Investor \$ 300
- Other Amount \$ _____
