Did You Know?**Keep Video Games Safe**

If your children play video games, it is important to know what they are playing and who they are playing with. Although, video games may look like a solo activity, many involve teams or groups where players meet online. Talk to your children about what they are playing, and what they are talking about with other players. Remind them about your internet safety rules, and what information they can and cannot share online. You can also research a game's content at the Entertainment Software Rating Board. www.esrb.org.
