

Volunteers Needed!

For: To be a judge in our Education Fair (Ed Fair)

When: Wednesday, May 12, 2020

Time: approx. 8:30-10:30 A.M.

Where: ICCS gym

I am looking for 9 volunteers to help judge this year's Ed Fair! The Ed Fair is a semester-long project that the 8th graders complete. Each student chose his/her topic for research, and this means there are a variety of topics covered.

The students are expected to include a 6-8 page research paper, a video presentation, and an interview. That is where you come in. For this to be a success, I need volunteers to judge the projects and interview the students. I know what you are thinking...me...grade a research paper...ummm, no, thank you. But don't worry! There will be rubrics provided for you to follow for all three areas. Each judge will be responsible for judging 2-3 projects.

If all of that is not enticing enough, your time judging does count towards volunteer hours for the school. Volunteers must be current and certified in diocesan safe environment training.

8th Grade Parents: Because this is an 8th-grade event, I kindly ask for no 8th-grade parents as judges. This is to help keep judging as neutral as possible.

Please note: There will be protocols in places for social distancing.

If you are interested, please respond via email by Friday, April 23.

More specific information regarding time, expectations, and rubrics will be given before the event.

The students have done a wide variety of research topics. If there is an area you are most interested in please let me know. I will try and match you with that topic.

Thank you and many blessings,

Miss Alina Szabo M.A.
