## Summer Intensive One-on-One Strings Lesson

Offered by Mrs. Yuri Noh

If you are looking for an intensive music lesson for your kids during the summer, it would be great to participate in a One-on-One Intensive Private Lesson (in-person) at ICCS. By offering this program in the summer, students are able to continue learning their instruments. Also, it will be a great opportunity for new students (Incoming Grade 4-8) who plan to enroll in the string orchestra next Fall semester.

Students are able to explore the classical music world and expand their musical knowledge through summer programs. In addition, private instruction offers students the opportunity to explore the extensive wealth of solo literature available for their instrument. The summer lessons also provide special performing opportunities that bring recognition for your child through the finale recital.

Giving students private lessons is one very effective way to enrich a child's string experience. Along with the one-on-one intensive lesson instruction, Mrs. Yuri Noh will also offer a free virtual group class for music history.
