

Marble Flooring for the Nave of Church Our Theological Virtues

The marble floor will seek to glorify the worship space, giving brilliance and beauty to the celebration of the liturgy. The stone represents the living stone, the foundation on which we have set the rock of our faith.

The herringbone pattern in the center aisle draws the worshiper into the paschal mystery, guiding the eye towards the sanctuary.

The border defines the space of the baptistry, pews and sanctuary, pulling all together as one in a holistic environment.

The symbols are a visual reminder of the theological virtues we practice and how we obtain our relationship with the living God. The symbols progress toward the sanctuary, reminding us this is how we are to achieve eternal life with Christ in heaven.
