### DID YOU KNOW? IDENTIFYING RISKY BEHAVIORS ONLINE

As virtual learning continues, children are spending most of their days online. With their own Jobs and responsibilities, parents likely cannot stand behind them and supervise their every move. So, it is more important every to assess your child's online activities periodically. Make sure you know which sites they are visiting, and who they are talking to on social media sites. Discuss risky behaviors with your children, like posting personal information (full name, age, location, school information, and more) using inappropriate language, or accessing sites with questionable content. For more information, get a copy of the VIRTUS article "Risky Online Behaviors and Young People" from <https://lacatholics.org/did-you-know/>.
