Because of the COVID-19 virus, the Knights of Columbus have been unable to raise money for the many great causes we support in the community. Due to a generous donor, we are in possession of the board game **PHARAOH'S QUEST**.

## PHARAOH'S QUEST

### PREFACE

Almost 4,000 years ago, Egypt's Sixth Dynasty collapsed, and the nation fell into a decline that lasted hundreds of years.

In its weakened state, it attracted invasions. One of these was undertaken by the Hyksos – who easily defeated the disorganized and demoralized Egyptian armies.

But after about a hundred years of Hyksos domination, the Egyptian princes of Thebes united to expel their conquerors. They drove the Hyksos out of Egypt and pursued them into Palestine. After several years of battles and sieges, the last of the Hyksos were defeated, and Egypt rose to a greatness that lasted for centuries.

**Pharaoh's Quest** is a game of strategy. The Pharaohs may have used such a game to teach their generals and field commanders the use of chariots and foot soldiers in defending against invading armies. It is intended to duplicate, in your living room, the decisions of battle faced by those ancient combatants.

The game is available immediately upon ordering, no waiting, and would make a great Christmas gift for the **board gamers** in your family.

All proceeds will be shared between St. Patrick's Church and St. Peter's Church.

**COST:** \$10.00 each
