## MINISTRIES DEVELOPMENT

**The Diocese provides training, educational opportunities, and administrative services such as human resources support and marketing/outreach to parishes and catholic ministries and is in need of permanent funding to ensure this focus.**

As the Hispanic population continues to grow, it is important that our Parishes create opportunities to engage Spanish speaking families and provide inclusive opportunities for them to gather, worship and integrate within the Church. Many Parishes have launched effective outreach programs and are meeting these needs. The Diocese has established the Office of Hispanic Ministry and will establish continuity and consistency throughout our parishes.
