October 30th, 2020

Math- Next week we will be starting our division chapter. Students will also be starting mad minutes! These are to help students memorize their multiplication facts!

Reading- We are wrapping up our Boxcar Children book. A rubric will be coming home explaining what they need to work on their dioramas. They will be given time in class to work on these so they may bring in any supplies they wish to use to create a scene from the book. They will need a shoe box or something of similar size to put their creations in. I will explain more next week once the rubrics are passed out.

Science- Next week we will be taking our test on wind. A study guide will be coming home on Monday with the test being on Wednesday. We will be learning about measuring rain and snow!

This week, students had a fun time creating haunted house mazes for science. They were given certain supplies and direction to make their creations. It was a blast watching them design and build these mazes!

Parent teacher conferences are going to be the week of the 12th and 13th which is a Thursday and Friday! I look forward to meeting with you all! Please be sure sign up for a time slot through the link that Mr. Smith will be sending out. Meetings this year will be through Zoom or Google meet.

St. Charles Borromeo's mission is to nurture unity between Faith and culture in our students by providing academic excellence and a spiritual and intellectual encounter with Jesus Christ, developing the whole person as a reflection of Jesus.
