November 6TH, 2020

Math- We have been learning about using arrays to divide. Students were given an amount and how many rows. From there, they had to find out how many would be in each row to use up the given number evenly.

Reading- The dioramas will be due Friday the 13th. During this day, the third grade will have the opportunity to be recorded so the school can see their creations! They will be given class time to complete these all next week. They may bring any supplies they need to create their scene. The goal is to use household/classroom items, so no store runs are needed 😊.

Parent teacher conferences are next week Thursday and Friday! I look forward to meeting with you all!

Report cards are coming home today. Please be sure to return your report card envelopes for next quarter, thank you.

St. Charles Borromeo's mission is to nurture unity between Faith and culture in our students by providing academic excellence and a spiritual and intellectual encounter with Jesus Christ, developing the whole person as a reflection of Jesus.
