November 20<sup>th</sup>, 2020

**Math-**Next week we will be continuing dividing using 0 and 1. Students have continued moving right along on their mad minutes! Keep up the good work.

**Reading-** The students are really diving into Sarah and wanting to read more and more chapters each day! Along with reading, we are looking for different metaphors and similes that the author uses.

**Science-** We started learning about how weather can be predicted. The students will be analyzing weather data and use the data to predict weather for the following year.

Spelling City:

I hope your students enjoyed playing different games to study for spelling! Several have shared how much fun they have.

If you have any questions on how to get on, let me know!

St. Charles Borromeo's mission is to nurture unity between Faith and culture in our students by providing academic excellence and a spiritual and intellectual encounter with Jesus Christ, developing the whole person as a reflection of Jesus.
