Math- This week, we worked on three-digit subtraction. We will be finishing our chapter next week. Our next topic will look at multiples of ten and problem solving.

Social Studies- We learned about how travel in Michigan was beginning to change and become even easier with the building of roads.

Science- We have been learning about the different types of organisms and why they live in certain places.

St. Charles Borromeo's mission is to nurture unity between Faith and culture in our students by providing academic excellence and a spiritual and intellectual encounter with Jesus Christ, developing the whole person as a reflection of Jesus.
