INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Travis County Water Control and Improvement District - Point Venture:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Travis County Water Control and Improvement District - Point Venture (the "District"), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Affiliated Company

ML&R WEALTH MANAGEMENT LLC

"A Registered Investment Advisor"

This firm is not a CPA firm

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 14 to the financial statements, the District's fund balance in the General Fund and net position as of September 30, 2017 have been restated to correct a misstatement related to the prior year. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, the schedule of changes in net pension liability and related ratios, the schedule of district contributions, and the notes to required supplementary information on pages MDA-1 through MDA-7, FS-29, FS-30, FS-31, and FS-32 through FS-33, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information required by the Texas Commission on Environmental Quality (the "TCEQ") listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplemental information required by the TCEQ listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information required by the TCEQ listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT - POINT VENTURE MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED SEPTEMBER 30, 2018

In accordance with Governmental Accounting Standards Board Statement No. 34 ("GASB 34"), the management of Travis County Water Control and Improvement District - Point Venture (the "District") offers the following discussion and analysis to provide an overview of the District's financial activities for the year ended September 30, 2018. Since this information is designed to focus on the current year's activities, resulting changes, and currently known facts, it should be read in conjunction with the District's financial statements that follow.

FINANCIAL HIGHLIGHTS

- *General Fund:* At the end of the current fiscal year, the assigned and unassigned fund balance was \$676,327, an increase of \$120,576 from the previous fiscal year, as restated. The District also decreased beginning fund balance by \$88,276 to adjust for water rights that were extinguished. General Fund revenues increased from \$1,257,095 in the previous fiscal year to \$1,276,564 in the current fiscal year due to an increase in the District's assessed valuation.
- *Debt Service Fund:* Fund balance restricted for debt service increased from \$435,814 in the previous fiscal year to \$687,045 in the current fiscal year. Debt Service Fund revenues increased from \$654,398 in the previous fiscal year to \$730,995 in the current fiscal year due to an increase in the District's assessed valuation.
- *Capital Projects Fund:* Fund balance restricted for capital projects decreased from \$3,799,673 in the previous fiscal year to \$268,635 in the current fiscal year. The District spent \$3,569,350 on construction in progress projects during the current fiscal year.
- *Governmental Activities:* On a government-wide basis for governmental activities, the District had revenues net of expenses of \$424,797 in the current fiscal year. Net position increased from an adjusted total of \$3,339,973 to \$3,764,770.

OVERVIEW OF THE DISTRICT

The District was created, organized and established on October 14, 1970, by the Texas Water Commission pursuant to the provisions of Chapter 51 of the Texas Water Code. The reporting entity of the District encompasses those activities and functions over which the District's elected officials exercise significant oversight or control. The District is governed by a five member Board of Directors which has been elected by District residents or appointed by the Board of Directors. The District is not included in any other governmental "reporting entity" as defined by GASB Statement No. 14, since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. In addition, there are no component units as defined in GASB Statements No. 14 and No. 39 which are included in the District's reporting entity.

TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT - POINT VENTURE MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED SEPTEMBER 30, 2018

USING THIS ANNUAL REPORT

This annual report consists of five parts:

1. *Management's Discussion and Analysis* (this section)
2. *Basic Financial Statements*
3. *Required Supplementary Information*
4. *Texas Supplemental Information* (required by the Texas Commission on Environmental Quality (the TSI section))

For purposes of GASB 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "Governmental Funds Total" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Position and the Statement of Activities.

OVERVIEW OF THE FINANCIAL STATEMENTS

The *Statement of Net Position and Governmental Funds Balance Sheet* includes a column (titled "Governmental Funds Total") that represents a balance sheet prepared using the modified accrual basis of accounting. This method measures cash and all other financial assets that can be readily converted to cash. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the District's net position will indicate financial health.

The *Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances* includes a column (titled "Governmental Funds Total") that derives the change in fund balances resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

The *Notes to the Basic Financial Statements* provide additional information that is essential to a full understanding of the information presented in the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*.

The *Required Supplementary Information* presents a comparison statement between the District's adopted budget and its actual results and information related to the District's participation in the Texas County and District Retirement System pension plan.

YEAR ENDED SEPTEMBER 30, 2018**

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Statement of Net Position:

The following table reflects the condensed Statement of Net Position:

Summary Statement of Net Position

	Governmental Activities		Change Increase (Decrease)
	2018	2017	
Current and other assets	\$ 2,410,548	\$ 5,396,982	\$ (2,986,434)
Capital and non-current assets	9,150,656	5,789,390	3,361,266
Total Assets	<u>11,561,204</u>	<u>11,186,372</u>	<u>374,832</u>
Deferred Outflows of Resources	<u>10,009</u>	<u>34,863</u>	<u>(24,854)</u>
Current Liabilities	1,139,130	882,779	256,351
Long-term Liabilities	<u>6,626,998</u>	<u>6,985,127</u>	<u>(358,129)</u>
Total Liabilities	<u>7,766,128</u>	<u>7,867,906</u>	<u>(101,778)</u>
Deferred Inflows of Resources	<u>40,315</u>	<u>13,356</u>	<u>26,959</u>
Net Investment in Capital Assets	2,337,393	2,293,365	44,028
Restricted	678,244	435,814	242,430
Unrestricted	<u>749,133</u>	<u>610,794</u>	<u>138,339</u>
Total Net Position	<u>\$ 3,764,770</u>	<u>\$ 3,339,973</u>	<u>\$ 424,797</u>

The District's net position increased by \$424,797 to \$3,764,770 from the previous year balance of \$3,339,973 (as adjusted for a prior period adjustment of \$88,276). Some of the District's assets are accounted for by capital assets or restricted for debt service. The District's unrestricted net position, which can be used to finance day to day operations, totaled \$749,133 in the current fiscal year.

Revenues and Expenses:

Summary Statement of Activities

	Governmental Activities		Change Increase (Decrease)
	2018	2017	
Service revenues	\$ 553,465	\$ 594,894	\$ (41,429)
Property taxes	1,252,734	1,126,541	126,193
Other	246,142	223,885	22,257
Total Revenues	2,052,341	1,945,320	107,021
Personnel services	597,864	570,097	27,767
Repairs/maintenance	277,790	262,422	15,368
Water	40,326	35,975	4,351
Professional fees	89,586	84,086	5,500
Other	133,543	159,955	(26,412)
Debt Service	212,114	231,054	(18,940)
Depreciation/Amortization	276,321	198,212	78,109
Total Expenses	1,627,544	1,541,801	85,743
Change in Net Position	424,797	403,519	21,278
Beginning Net Position	3,428,249	3,197,404	230,845
Prior Period Adjustment	(88,276)	(172,674)	84,398
Ending Net Position	\$ 3,764,770	\$ 3,428,249	\$ 336,521

Revenues were \$2,052,341 for the fiscal year ended September 30, 2018 while expenses were \$1,627,544. Net position increased \$424,797 less the prior period adjustment of \$88,276 for a net increase of \$336,521.

Property taxes totaled \$1,252,734. Included in these taxes are real and personal property taxes which are assessed October 1 and payable before the following January 31.

The District's assessed value in fiscal year 2018 was approximately \$199 million compared to approximately \$178 million in fiscal year 2017. The tax rate is set after reviewing the operating and debt service requirements and appraised values determined by Travis County. The ad valorem tax rate for fiscal years 2018 and 2017 was \$0.6247 and \$0.6253 respectively per \$100 assessed valuation. The District's primary revenue sources are service account fees and property taxes.

BUDGETARY HIGHLIGHTS

The General Operating Fund pays for daily operating expenses. On August 19, 2017, the Board of Directors approved a budget for the fiscal year ending September 30, 2018. The budget included revenues of \$1,248,679 as compared to expenses of \$1,250,166. When comparing actual to budget, the District had a positive variance of \$122,063. More detailed information about the District's budgetary comparison is presented in the *Required Supplementary Information*.

CAPITAL ASSETS

At September 30, 2018, the District's governmental activities had invested \$9,063,432 in land and easements, construction in progress and various other assets. The detail is reflected in the following schedule:

Summary of Capital Assets, net

	9/30/2018	9/30/2017
Land and Easements	\$ 167,042	\$ 167,042
Construction in progress	4,806,840	1,238,490
Office equipment	49,075	49,075
Machinery/equipment	473,296	472,296
Building/improvements	356,694	356,694
Distribution system	1,862,754	1,862,754
Water/Wastewater Facilities	5,985,450	5,985,450
Less: Accumulated Depreciation	(4,637,719)	(4,371,348)
Total Net Capital Assets	<u>\$ 9,063,432</u>	<u>\$ 5,760,453</u>

More detailed information about the District's capital assets is presented in the *Notes to the Basic Financial Statements*.

LONG TERM DEBT

The District has the following balances outstanding on unlimited tax bonds:

	Bonds Payable
Series 2016	<u>\$ 7,080,000</u>
Total	<u>\$ 7,080,000</u>

The District owes approximately \$7 million to bond holders. During the year, the principal balance was reduced by \$265,000. More detailed information about the District's long-term debt is presented in the *Notes to the Basic Financial Statements*.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT
DISTRICT - POINT VENTURE
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED SEPTEMBER 30, 2018**

CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS

The total net taxable value for the 2018 tax year is approximately \$222 million. The fiscal year 2019 tax rate is \$0.6259 on each \$100 of taxable value. Approximately 42% of the property tax will fund general operating expenses, and approximately 58% of the property tax will be set aside for debt service on the District's bonded debt.

The adopted budget for fiscal year 2019 projects an operating fund balance decrease of \$359,713.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District in care of Willatt & Flickinger, PLLC, 12912 Hill Country Blvd., Suite F-232, Austin, Texas, 78738.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

1. SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of Travis County Water Control and Improvement District - Point Venture (the "District") relating to the funds included in the accompanying financial statements conform to generally accepted accounting principles ("GAAP") as applied to governmental entities. GAAP for local governments include those principles prescribed by the *Governmental Accounting Standards Board* ("GASB"), which constitutes the primary source of GAAP for governmental units. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced.

Reporting Entity - The District was created, organized and established on October 14, 1970, by the Texas Water Commission pursuant to the provisions of Chapter 51 of the Texas Water Code. The reporting entity of the District encompasses those activities and functions over which the District's elected officials exercise significant oversight or control. The District is governed by a five member Board of Directors (the "Board") which has been elected by District residents or appointed by the Board. The District is not included in any other governmental "reporting entity" as defined by GASB Statement No. 14, since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. In addition, there are no component units included in the District's reporting entity.

Basis of Presentation - Government-Wide and Fund Financial Statements - The basic financial statements are prepared in conformity with GASB Statement No. 34, and include a column for government-wide (based upon the District as a whole) and fund financial statement presentations. GASB Statement No. 34 also requires as supplementary information the Management's Discussion and Analysis, which includes an analytical overview of the District's financial activities. In addition, a budgetary comparison statement is presented that compares the final amended General Fund budget with actual results.

- **Government-Wide Financial Statements**

The District's Statement of Net Position includes both non-current assets and non-current liabilities of the District, which were previously recorded in the General Fixed Assets Account Group and the General Long-Term Debt Account Group. In addition, the government-wide Statement of Activities column reflects amortization and depreciation expense on the District's capital assets, including infrastructure, and original issue discounts.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

- **Government-Wide Statements (continued) -**

The government-wide focus is more on the sustainability of the District as an entity and the change in aggregate financial position resulting from financial activities of the fiscal period. The focus of the fund financial statements is on the individual funds of the governmental categories. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

- **Fund Financial Statements**

Fund based financial statement columns are provided for governmental funds. GASB Statement No. 34 sets forth minimum criteria (percentage of assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures of either fund category) for the determination of major funds. All of the District's funds are reported as major funds.

Governmental Fund Types - The accounts of the District are organized and operated on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a self-balancing set of accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures. The various funds are grouped by category and type in the financial statements. The District maintains the following fund types:

- **General Fund** - The General Fund accounts for financial resources in use for general types of operations which are not encompassed within other funds. This fund is established to account for resources devoted to financing the general services that the District provides for its residents. Tax revenues and other sources of revenue used to finance the fundamental operations of the District are included in this fund.
- **Debt Service Fund** - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, debt principal, interest and related costs.
- **Capital Projects Fund** - The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Non-Current Governmental Assets and Liabilities - GASB Statement No. 34 eliminates the presentation of Account Groups, but provides for these records to be maintained and incorporates the information into the government-wide financial statement column in the Statement of Net Position.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

Basis of Accounting

- **Governmental Funds**

- **Government-Wide Statements** - The government-wide financial statement column is reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied.
- **Fund Financial Statements** - The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in the net fund balance. Governmental funds are accounted for on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual (i.e., both measurable and available).

“Measurable” means that the amount of the transaction can be determined and “available” means the amount of the transaction is collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Expenditures, if measurable, are generally recognized on the accrual basis of accounting when the related fund liability is incurred. Exceptions to this general rule include the unmatured principal and interest on general obligation long-term debt which is recognized when due. This exception is in conformity with GAAP.

Property tax revenues are recognized when they become available. In this case, available means when due, or past due and receivable within the current period and collected within the current period or soon enough thereafter to be used to pay liabilities of the current period. Such time thereafter shall not exceed 60 days. Tax collections expected to be received subsequent to the 60-day availability period are reported as deferred inflows of resources. All other revenues of the District are recorded on the accrual basis in all funds.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

Basis of Accounting

- **Governmental Funds (continued)**

- **Fund Financial Statements (continued)** - The District reports deferred inflows of resources on its balance sheet. Deferred inflows arise when a potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. In subsequent periods, when revenue recognition criteria are met, the balance for deferred inflows of resources is removed from the balance sheet and revenue is recognized.

Budgets and Budgetary Accounting - A budget was adopted on August 19, 2017 for the General Fund on a basis consistent with GAAP. The District’s Board utilizes the budget as a management tool for planning and cost control purposes. The budget was not amended during the current fiscal year.

Cash and Cash Equivalent Investments - Cash and cash equivalent investments include cash on deposit as well as investments with original maturities of three months or less. The investments, consisting of an external investment pool, are recorded at amortized cost.

Accounts Receivable - The District provides for uncollectible accounts receivable using the allowance method of accounting for bad debts. Under this method of accounting, a provision for uncollectible accounts is charged to earnings. The allowance account is increased or decreased based on past collection history and management’s evaluation of accounts receivable. All amounts considered uncollectible are charged against the allowance account, and recoveries of previously charged off accounts are added to the allowance. The District established an allowance for doubtful accounts of \$12,848 at September 30, 2018.

Ad Valorem Property Taxes - Property taxes, penalties, and interest are reported as revenue in the fiscal year in which they become available to finance expenditures of the District. Allowances for uncollectible property taxes are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

Capital Assets - Capital assets, which include land and easements, construction in progress, equipment, buildings and improvements, a distribution system, and water and wastewater facilities, are reported in the government-wide column in the Statement of Net Position. Public domain (“infrastructure”) capital assets including distribution systems and water and wastewater facilities, are capitalized. Items purchased or acquired are reported at historical cost or estimated historical cost. Contributed fixed assets are recorded as capital assets at estimated acquisition value at the time received.

Capital assets (other than land and construction in progress) are depreciated using the straight-line method over the following estimated useful lives:

Asset	Years
Infrastructure	30
Building and improvements	10-40
Water and sewer plant	30
Machinery and equipment	5-10
Furniture and fixtures	5
Automobiles and trucks	5

Interfund Transactions - Transfers from one fund to another fund are reported as interfund receivables and payables if there is intent to repay that amount and if the debtor fund has the ability to repay the advance on a timely basis. Operating transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Long-Term Debt - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position. Bond premiums and original issue discounts are deferred over the life of the bonds. Bonds payable are reported net of the applicable bond premiums or discounts.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures in both the government-wide and the fund financial statements.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

Deferred Outflows and Deferred Inflows of Resources - The District complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. See Note 12 for additional information on deferred outflows and inflows of resources.

Pensions - The fiduciary net position of the Texas County and District Retirement System ("TCDRS") has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TCERS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Vacation and Sick Leave - Vacation and sick pay expenditures are charged to operations when taken by the employees of the District. The liabilities for accumulated vacation leave at September 30, 2018 are estimated to not be significant, and are not reflected in the accompanying financial statements.

Fund Equity - The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. See Note 13 for additional information on those fund balance classifications.

Accounting Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

Fair Value Measurements - The District complies with GASB Statement No. 72, *Fair Value Measurement and Application*, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.
- Level 3 are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

- Market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities
- Cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost)
- Income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations

Recently Issued Accounting Pronouncements

In June 2017, the GASB issued GASB Statement No. 87, *Leases*, effective for fiscal years beginning after December 15, 2019. The objective of GASB Statement No. 87 is to improve accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB Statement No. 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB Statement No. 87, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources. Management is evaluating the effects that the full implementation of GASB Statement No. 87 will have on its financial statements for the year ended September 30, 2021.

2. RECONCILIATION OF THE GOVERNMENTAL FUNDS

Adjustments to convert the Governmental Funds Balance Sheet to the Statement of Net Position are as follows:

Fund balances - total governmental funds	\$	1,632,007
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.		
Capital assets	\$	13,701,151
Less: Accumulated depreciation		<u>(4,637,719)</u>
Net pension asset for TCDRS pension plan		87,224
Deferred resource outflow related to TCDRS		10,009
Deferred resource inflow related to TCDRS		(40,315)
Revenue is recognized when earned in the government-wide statements, regardless of availability.		
Governmental funds report deferred inflows of resources for revenues earned but not available.		
		32,665
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.		
Bonds payable		(7,080,000)
Bond discounts		178,002
Capital lease payable		(92,676)
Accrued bond interest payable		<u>(25,578)</u>
Total net position	\$	<u><u>3,764,770</u></u>

2. RECONCILIATION OF THE GOVERNMENTAL FUNDS (continued) -

Adjustments to convert the Governmental Funds Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities are as follows:

Changes in fund balances - governmental funds		\$ (3,159,231)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report:		
Capital expenditures in year paid	\$ 3,569,350	
Bond principal in year paid	282,037	
Interest expenditures in year paid	663	
Tax revenue when collected	6,452	3,858,502
Governmental funds do not report:		
Depreciation/amortization		(276,321)
Change in TCDRS pension plan net pension asset and related deferred outflows and inflows of resources		1,847
Change in net position		\$ 424,797

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The District’s deposits are required to be secured in the manner provided by law for the security of the funds. Custodial credit risk is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. The District’s investment policy requires that the District’s deposits be fully insured by Federal Deposit Insurance Corporation (“FDIC”) insurance or collateralized with obligations of the United States or its agencies and instrumentalities. At September 30, 2018, the carrying amount of the District’s deposits was \$877,830 and the bank balance was \$1,107,677. At September 30, 2018, the District’s deposits were not fully collateralized by FDIC insurance or by pledged collateral, thus deposits were exposed to custodial credit risk.

The investment policies of the District are governed by Section 2256 of the Texas Government Code (the “Public Funds Investment Act”) and an adopted District Investment Policy that includes depository contract provisions and custodial contract provisions. The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy, which is approved annually by the Board. Major provisions of the District’s investment policy, which complies with the Public Funds Investment Act, include: depositories must be FDIC insured Texas banking institutions; depositories must fully insure or collateralize all demand and time deposits; and securities collateralizing time deposits are held by independent third party trustees. The primary objectives of the District’s investment strategy, in order of priority, are safety of principal, liquidity, and yield.

NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

3. CASH, CASH EQUIVALENTS AND INVESTMENTS (continued) -

Interest rate risk - In accordance with its investment policy, the District manages its exposure to declines in fair values through investment diversification and limiting investments as follows:

- Money market mutual funds are required to have weighted average maturities of 90 days or fewer; and
- Other mutual fund investments are required to have weighted average maturities of less than two years.

Credit risk - The District's investment policy requires the application of the prudent-person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, and considering the probable safety of their capital as well as the probable income to be derived. The District's investment policy requires that District funds be invested in:

- Obligations of the United States Government and/or its agencies and instrumentalities;
or
- Money market mutual funds with investment objectives of maintaining a stable net asset value of \$1 per share; or
- Mutual funds rated in one of the three highest categories by a nationally recognized rating agency; or
- Securities issued by a State or local government or any instrumentality or agency thereof, in the United States, and rated in one of the three highest categories by a nationally recognized rating agency; or
- Public funds investment pools rated AAA or AAAM by a nationally recognized rating agency.

YEAR ENDED SEPTEMBER 30, 2018**

3. CASH, CASH EQUIVALENTS AND INVESTMENTS (continued) -

At September 30, 2018, the District held the following cash equivalents and investments:

<u>Investment</u>	Fair Value at 9/30/2018	Weighted Average Maturity (Days)	<u>Investment Rating</u>	
			<u>Rating</u>	<u>Rating Agency</u>
TexPool	\$ 1,438,197	1	AAAm	Standard & Poors
	<u>\$ 1,438,197</u>			

The Comptroller of Public Accounts is the sole officer and director of the Texas Treasury Safekeeping Trust Company, which is authorized to operate the Texas Local Government Investment Pool (“TexPool”). Although TexPool is not registered with the SEC as an investment company, they operate in a manner consistent with the SEC’s Rule 2a-7 of the Investment Company Act of 1940. TexPool also has an advisory board to advise on TexPool’s investment policy. This board is made up equally of participants and nonparticipants who do not have a business relationship with TexPool. Federated Investors is the investment manager for the pool and manages daily operations of TexPool under a contract with the Comptroller. TexPool’s investment policy stipulates that it must invest in accordance with the Public Funds Investment Act. These investments are stated at amortized cost in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* and as permitted by GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*.

In accordance with GASB Statement No. 79, the external local government investment pool does not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. This pool does not impose any liquidity fees or redemption gates.

Concentration of credit risk - In accordance with the District’s investment policy, investments in individual securities are to be limited to ensure that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.

4. PROPERTY TAXES

Property taxes attach as an enforceable lien on January 1. Taxes are levied on or about October 1, are due on November 1, and are past due the following February 1. The Travis Central Appraisal District established appraisal values in accordance with requirements of the Texas Legislature. The District levies taxes based upon the appraised values. The Travis County Tax Assessor Collector bills and collects the District’s property taxes. The Board set the tax rates for the 2018 fiscal year (2017 tax year) on September 16, 2017.

The property tax rates, established in accordance with state law, were based on 100% of the net assessed valuation of real property within the District on the 2017 tax roll. The 2017 tax rate, based on total taxable assessed valuation of \$199,201,141 was \$0.6247 on each \$100 valuation and was allocated to the General Fund and Debt Service Fund at \$0.2609 and \$0.3638, respectively.

Property taxes receivable at September 30, 2018, consisted of the following:

	<u>General Fund</u>	<u>Debt Service Fund</u>	<u>Total</u>
Current year levy	\$ 4,141	\$ 5,774	\$ 9,915
Prior years’ levies	11,747	11,003	22,750
	<u>\$ 15,888</u>	<u>\$ 16,777</u>	<u>\$ 32,665</u>

The District is prohibited from writing off real property taxes without specific authority from the Texas Legislature.

NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

8. LONG-TERM DEBT (continued) -

Bonds payable at September 30, 2018, were comprised of the following issues:

Unlimited Tax Bonds:

\$7,080,000 - 2016 Unlimited Tax Bonds payable serially through the year 2036 at interest rates which range from 2.00% to 3.25%.

The annual requirements to amortize all bonded debt at September 30, 2018, including interest, are as follows:

Year Ended September 30,	Annual Requirements for All Series		
	Principal	Interest	Total
2019	\$ 275,000	\$ 204,625	\$ 479,625
2020	285,000	199,125	484,125
2021	295,000	193,425	488,425
2022	310,000	187,525	497,525
2023	320,000	181,325	501,325
2024 - 2028	1,815,000	754,075	2,569,075
2029 - 2033	2,220,000	458,425	2,678,425
2034 - 2036	1,560,000	102,075	1,662,075
	\$ 7,080,000	\$ 2,280,600	\$ 9,360,600

\$687,045 is available in the Debt Service Fund to service the bonded debt as of September 30, 2018.

9. COMMITMENTS AND CONTINGENCIES

The developers of the land within the District have incurred costs for construction of facilities, as well as costs pertaining to the creation and operation of the District. Claims for reimbursement of construction costs and operational advances will be evaluated upon receipt of adequate supporting documentation and proof of contractual obligation. Such costs may be reimbursable to the developer by the District from cash and cash equivalent investments held in the Capital Projects Fund, subject to approval by the Texas Commission on Environmental Quality, or from operations.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

10. RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained coverage from commercial insurance companies and the Texas Municipal League Intergovernmental Risk Pool (“TML Pool”) to effectively manage its risk. All risk management activities are accounted for in the General Fund. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered.

The TML Pool was established by various political subdivisions in Texas to provide self-insurance for its members and to obtain lower costs for insurance. TML Pool members pay annual contributions to obtain the insurance. Annual contribution rates are determined by the TML Pool Board. Rates are estimated to include all claims expected to occur during the policy including claims incurred but not reported. The TML Pool has established claims reserves for each of the types of insurance offered. Although the TML Pool is a self-insured risk pool, members are not contingently liable for claims filed above the amount of the fixed annual contributions. If losses incurred are significantly higher than actuarially estimated, the TML Pool adjusts the contribution rate for subsequent years. Members may receive returns of contributions if actual results are more favorable than estimated.

11. INSURANCE

All regular employees of the District are eligible under the group hospitalization and life insurance program provided by the District through Blue Cross Blue Shield. The District pays the premium for eligible employees.

12. DEFINED BENEFIT PENSION PLAN

Plan Description

The District provides retirement, disability, and death benefits for all of its non-temporary full-time employees through a nontraditional defined benefit pension plan administered by the TCDRS. The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 760 active participating counties and districts throughout Texas. TCDRS in the aggregate issues a comprehensive annual financial report (“CAFR”) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas State statutes governing TCDRS (“TCDRS Act”). Members can retire at age 60 and above with 5 or more years of service but must leave their accumulated contributions in the plan to receive any employer-finance benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

12. DEFINED BENEFIT PENSION PLAN (continued) -

Benefits Provided

Benefit amounts are determined by the sum of the employee’s contributions to the plan, with interest, and the employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act, so that the resulting benefits can be expected to be adequately financed by the employer’s commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee’s accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Employee membership data related to the Plan, as of the valuation date of December 31, 2017, was as follows:

Retirees and beneficiaries currently receiving benefits	1
Terminated employees entitled to but not yet receiving benefits	7
Active plan members	8
Total	<u>16</u>

Contributions

The District has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the employer is actuarially determined annually. The District contributed using the actuarially determined rate for the year ended December 31, 2017 of 2.4% for 2018 as adopted by the governing body of the District. The employee contribution rate was 5.00%. The employee contribution rate and the employer contribution rate may be changed by the governing body of the District within the options available in the TCDRS Act. The required contribution and actual contributions for the year ended September 30, 2018 equaled \$9,196.

12. DEFINED BENEFIT PENSION PLAN (continued) –

Net Pension Asset

Actuarial Assumptions

The District’s net pension asset was measured as of December 31, 2017 and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation Timing	Actuarially determined contribution rates are calculated as of December 31, two years prior to the end of the fiscal year in which the contributions are reported
Actuarial Cost Method	Individual Entry Age Normal
Amortization method	Level percentage of payroll, closed
Amortization period	0.0 years
Asset Valuation Method	5-year smoothed market
Inflation	2.75%
Salary Increases	Varies by age and service. 4.9% average over career including inflation
Investment Rate of Return	8.10%
Cost-of-Living Adjustments	Cost-of-Living Adjustments for the District are not considered to be automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB 68 calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.
Retirement Age	Between ages 40 and 74 with various rates of service retirement by gender: low of 4.5% for age 40-44 to high of 25.0% for age 65-66 for males and females
Turnover	New employees are assumed to replace any terminated members and have similar entry ages.
Mortality:	
Depositing members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Employee Mortality Tables for females, projected with 110% of the MP-2014 Ultimate scale after 2014.
Service retirees, beneficiaries and non-depositing members	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

12. DEFINED BENEFIT PENSION PLAN (continued) -

Disabled retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
-------------------	---

The actuarial assumptions that determined the total pension liability as of December 31, 2017 were based on the results of an actuarial experience study for the period January 1, 2013 through December 31, 2016, except where required to be different by GASB 68.

Long-Term Expected Rate of Return

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2018 information for a 10 year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in 2017.

POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

12. DEFINED BENEFIT PENSION PLAN (continued) -

- (a) Target asset allocation adopted at the April 2018 TCDRS Board meeting.
- (b) Geometric real rates of return equal the expected return minus the assumed inflation rate of 1.95%, per Cliffwater's 2018 capital market assumptions.
- (c) Includes vintage years 2006-present of Quarter Pooled Horizon internal rates of return.
- (d) Includes vintage years 2005-present of Quarter Pooled Horizon internal rates of return.
- (e) Includes vintage years 2007-present of Quarter Pooled Horizon internal rates of return.

Discount Rate

The discount rate used to measure the total pension liability was 8.10%. This rate reflects the long-term rate of return funding valuation assumption of 8.00%, plus 0.10% adjustment to be gross of administrative expenses as required by GASB 68. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active, inactive, and retired members. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return, and the municipal bond rate does not apply.

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources

For the year ended September 30, 2018, the District recognized pension expense of \$7,349. As of September 30, 2018, the deferred outflows and inflows of resources are as follows:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 241	\$ 33,315
Changes of assumptions	2,659	-
Net difference between projected and actual earnings	-	7,000
Contributions made subsequent to measurement date	<u>7,109</u>	<u>-</u>
Total	<u>\$ 10,009</u>	<u>\$ 40,315</u>

The \$7,109 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2019. The remaining amounts currently reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

13. FUND BALANCES

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

- Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact. The District had no such amounts.
- Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.
- Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board. The District had no such amounts.
- Assigned - For the General Fund, amounts that are appropriated by the Board that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed. At September 30, 2018, \$359,713 was assigned for the subsequent fiscal year's budget deficit.
- Unassigned - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

**TRAVIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT -
POINT VENTURE
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2018**

13. FUND BALANCES (continued) -

The detail of the fund balances are included in the Governmental Funds Balance Sheet on page FS-1.

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board may also assign fund balance for a specific purpose.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

14. PRIOR PERIOD ADJUSTMENT

The District has recorded a prior period adjustment to the General Fund and government-wide financial statements in the amount of \$88,276 to remove the net book value of water rights that have been extinguished. The beginning fund balance of the General Fund has been restated from \$644,027 to \$555,751 and beginning net position has been restated from \$3,428,249 to \$3,339,973.

15. SUBSEQUENT EVENTS

In January 2019, the District terminated all full-time employees and began using external consultants to perform the operations of the District.

In May 2019, the District entered into a lease agreement for a temporary flow equalization basin and related equipment. The initial term of the lease is thirty-six months and lease payments of \$6,700 are due monthly.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
YEAR ENDED SEPTEMBER 30, 2018**

1. METHODS AND ASSUMPTIONS USED IN CALCULATIONS OF ACTUARIALLY DETERMINED CONTRIBUTIONS

The following methods and assumptions were used to determine the contributions rates:

Valuation Timing	Actuarially determined contribution rates are calculated as of December 31, two years prior to the end of the fiscal year in which the contributions are reported
Actuarial Cost Method	Individual Entry Age Normal
Amortization method	Level percentage of payroll, closed
Amortization period	0.0 years
Asset Valuation Method	5-year smoothed market
Inflation	2.75%
Salary Increases	Varies by age and service. 4.9% average over career including inflation
Investment Rate of Return	8.10%
Cost-of-Living Adjustments	Cost-of-Living Adjustments for the District are not considered to be automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB 68 calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.
Retirement Age	Between ages 40 and 74 with various rates of service retirement by gender: low of 4.5% for age 40-44 to high of 25.0% for age 65-66 for males and females
Turnover	New employees are assumed to replace any terminated members and have similar entry ages.
Mortality:	
Depositing members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Employee Mortality Tables for females, projected with 110% of the MP-2014 Ultimate scale after 2014.
Service retirees, beneficiaries and non-depositing members	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Disabled retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.

2. CHANGE IN ASSUMPTIONS

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

- Inflation assumption decreased from 3.0% per year to 2.75% per year, with a corresponding decrease in the general wage growth assumption from 3.5% to 3.25%.
- Slightly adjusted all mortality rates to better reflect anticipated experience.
- Adjusted retirement ratios to reflect people retiring at older ages.
- Lowered disability retirement rates.
- Adjustments made to termination rates.
- Lowered probability of withdrawal of contributions upon termination.
- Adjusted merit salary scale to reflect anticipated future experience.
