

The goal of the HOPE Program is to help you understand the grief process so you can deliberately and concisely grieve your loss and eventually heal.

The mission of the HOPE program is to help those hurting to learn the grief process and recognize that in completing the necessary tasks, they will heal.

It is important that all who are grieving understand:

- The array of thoughts and feelings that a griever experiences are normal
- It takes an average of two years to grieve
- HOPE offers FREE, Seven Week Programs at two Fort Bend locations
- Meetings are led by a hospice trained volunteer facilitator
- The loss may be recent or in the distant past

*Blessed are those who mourn,
for they shall be comforted.*

BEFORE YOU CAN HEAL YOU
MUST FULLY GRIEVE YOUR LOSS.

GRIEF PROGRAM

HOPE

HELPING OUR PAIN EASE

**Learn How to Ease the Pain of Grief
After the Death of a Loved One**

HOPE is a free, adult informative grief support group which helps in processing and learning how to cope with the death of a loved one. Although everyone's grief is unique, there are four behavioral and psychological tasks that a person must complete in adjusting to his loss. The Hope Program focuses on how to complete these four tasks.

*At the blueness of
the skies*

*And in the warmth
of summer,*

We Remember Them

Sylvan Kamens & Rabbi Jack Reimer

*Grief is experienced by
every race, faith, gender
and ethnicity*

To discern whether the HOPE
program is right for you
