PARISH RENOVATIONS AND CAPITAL WORKS

Dear Parishioners & friends,

We are in the middle of our capital works to freshen up the Church, Sacristy, Presbytery and Hall. Please be aware of some updates and changes to the previously communicated notice.

The works are progressing well with the air conditioner installations complete, installation of a new cupboard in the Sacristy complete, re-varnishing of the Pews complete and painting of the Parish Hall complete.

The major works in the Church are now taking place which will see weekend Masses celebrated in the **Parish Hall** during this time. There will be no weekday services while the maintenance works take place. Items from the church are being stored in the Parish Hall during this time so availability to use and book the Parish Hall is restricted for all of October.

The tiling of the sanctuary and the whole naïve of the Church was delayed by a week and commenced on 11th October with preparation works complete and laying of tiles to commence from Monday 18th October.

We will provide a progress update towards the end of next week.

Following the major works in the Church the sound system will undergo an upgrade. This is expected to take place after **25th October**.

Other renovations and capital works in progress and to occur are:

- Renovation of the Presbytery Bathroom, kitchen, and laundry
- Re-roofing of the presbytery roof with colour-bond; to match the colour of the church and hall roof
- Painting of the Presbytery (November project)

Further updates will be shared in the coming weeks.
