

**Mary Help of Christians Catholic School  
Grades 6 - 8 Summer Math Activities**

This summer, rising 6th, 7th, and 8th grade students are required to complete the IXL Summer Boost Math Skill plans.

These skill plans will help students avoid the “summer slide” by reviewing skills essential to the students’ upcoming grade levels.

To access these activities, please follow these instructions:

1. Students should log in to IXL.com using their regular username and password.

Username: mhocfirstnamelastname (no dots, spaces or capital letters)

Password: mhocmmdyyy (mhoc, then birthdate with 8 digits - no slashes)

**\*\*It is critical that the student log in or he/she will be in “trial mode” and will not have access to all activities.\*\***

2. Students should then select “Learning” in the green menu bar.

3. Choose “Math” and just below that, “Skill Plans”.

4. Once on the Skill Plan page, scroll down to the section called “IXL Summer Boost Math”

5. Students should choose the grade level they will enter in August (i.e. rising 6th graders select grade 6).

There are a total of 20 days worth of activities (4-five day weeks). Students are asked to complete all activities at a Smart Score of 80 minimum. This should be completed by August 23. This will be counted as a PBL (project) grade for the first quarter in math.

Have a great summer!
