## Scrip Tips

**Start simple** by buying gas and grocery and buying on or near payday so you can use it instead of your normal payment method. Then add in other things like gifts, home improvement, travel and dining.

**Help us play the rebate game:** Gas & grocery Scrip earns a lower rebate, so when you can, buy the dining & retailer options at the higher rebates to increase your overall rebate earnings. **Visa & Amex** cards are great but to maximize rebates use at retailers for which we do not carry Scrip (*Aldi, Trader Joes, Kroger, Coney Island, etc.*). When you do use Visa & Amex, remember there is **NO ACTIVATION FEE** like those bought elsewhere. **This will save \$4-\$8 per card!**

**Vacation or Staycation:** Many of will be planning for a vacation or time off work during the warmer months. When you are planning, please keep in mind the many Scrip options for dining (fine & fast food), gasoline, air travel, lodging (hotel & Airbnb) and car rental.

If you are staying at home during your time off, keep Scrip in mind for home and lawn projects, dining out, fast food and activities like movies!
