

DISMISSAL UPDATE:

We are so excited that we are going to welcome our whole school back together! That being said, we have to make some adjustments due to the number of parent pick up/car riders that we have. It will take a little bit more time at first but it is safer for students and families. We ask for your **patience** and **understanding** as we get this new way started.

- We are going to do a car line (like morning drop off)
- All families will get a sign for the car visor. Flip your visor down and put sign so we can read it (see picture). Rubber bands or safety pins are a good way to fasten it.
- Cars will enter off of Broad Street and form a line in front of school. (See map)
- Stop at office door, we will read your sign and call your students, you will continue forward around the building.
- Turn right out of school on to Duchene Lane.
- Stop and pick up your students at front door (#10) Map is on back of paper.
- Continue driving forward and turn right on Yearling. Turning left will back up our car line.
- We have 2 buses that are coming to pick up students and will need some time to load.

Please be patient and drive slow. Do not cut in line.
We want to get your students in your car as fast as we can, but we need to do it safely.

Look over the map on other side and make sure you follow the pattern and directions.
