

You are my Protectors and Mentors.

If you, or others, feel that you possess great physical or mental strength, and you use that for good, you are a Protector.

If you are popular, a leader, and people like to be around you, and you use that for good, then you are a Mentor.

You can see our Protectors and Mentors everywhere, in our church, in our classrooms, during recess, on our buses and even outside of our school, on social media and messages, you look out for each other.

You are part of history, the first page in the history of our Academy.

People outside of here will know who you are, because everyone loves a Protector and Mentor.

This message was shared with our students at the All School Mass
