*God of hope, who brought love into this world,

WINTER RECESS

Every effort is made to have the students go out for recess when the temperature is 32 degrees or higher. We want everyone to be safe and warm, so please ensure your child is sent to school with a warm jacket, hat and gloves. Thank you!

CAMPUS ACTIVITIES

Take a moment to see the attached photos! Always a lot happening in and around our buildings!

Please see the attachment section for what is on the menu as well as cafeteria news.

If you use purchase gift cards through MyScripWallet, please read about the changes in the program below. If you have any questions, please contact Bill Trozzo, Gift Card coordinator for St. Thomas More Church, at the following email address: billtrozzo46@gmail.com

As we continue to transition our efforts to make fundraising even easier with the new RaiseRight™ app, the following functions will no longer be supported on MyScripWallet.com:

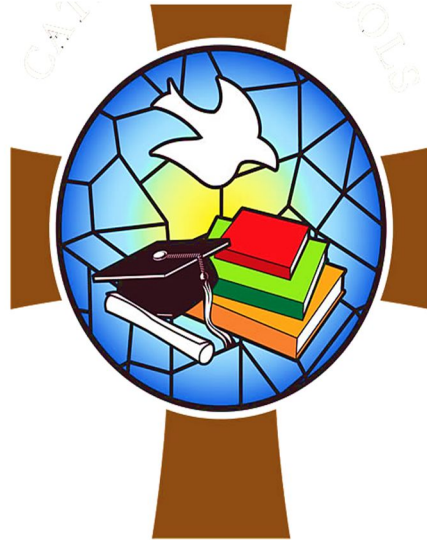

- *Enrollment – New families will no longer be able to enroll in an organization’s program through MyScripWallet.com.*
- *Credit card payment – Families will no longer have the option to pay for orders by credit card but can continue to pay for orders with an online bank account or check, if accepted by your organization.*

Enrollment and credit card payment will continue to be available through Shop.ShopWithScrip.com and the RaiseRight app.

Encourage families to make the switch to the new RaiseRight app today and pick up right where they left off. Use the same sign-in information. All of the gift cards they purchased and their payment information automatically transfer to the app for easy access when they’re on the go. [Get RaiseRight app tools to spread the word](#)

MRS. LYNCH'S WEEKLY MASS ANNOUNCEMENT

We are back together, but we are still challenged.

I am so proud of all of you, adapting in so many ways, which has allowed us to be together, in school, learning and growing this year.

Do you understand how rare this is?

We are surrounded by schools which have not been able to do this.

I, we, need all of you, to do all the things which keep us together.

We need to properly wear our masks when we are outside of our homes and around others.

We need to both wash our hands and, one of the hardest things to do, keep our hands away from our faces.

If someone is feverishly sick at home, we must stay home.

You and your family are the Protectors of our Academy.

Thank you and welcome back.

Have some nerves or curiosity about the expectations of high school writing? If so, this academic enrichment lesson could be for you! Fractals - How math, nature, and design create exciting patterns

Tuesday, Jan. 12, 2020

Via Zoom

6:30 p.m. - 7 p.m.

Cost: Free

This workshop will explore self-repeating patterns called fractals. These interesting designs appear in nature and can be explained using the language of mathematics. Students will get an opportunity to create their own fractals and see how iteration becomes a useful tool in geography and video game creation.
