

MRS. LYNCH'S WEEKLY MASS ANNOUNCEMENT

Competition...

We grow into a world where we must compete for what we want.

Half of our students are in a sport, where the outcome of an event is determined by team or individual effort. They compete.

In our Academy, we try to prepare you for your competitions in the future, both in school and in life.

Each day you grow, mentally and physically, with the hope of becoming better than you were the day before.

Those you love, take pictures of you, so they can look back on your growth.

You have assignments and tests, to see how you have grown in your knowledge.

Use this time to work hard, study hard, and prepare for the competitions and challenges you will face.

Never forget that we are one team, one school, so help one another, we all want you to win.
