

Holy Trinity Environment Ministry

- This ministry helps to foster and create a physical environment of beauty and reverence in the worship space that is suited to the sacred action of the assembly throughout the liturgical year.
- Ministers help form the church building into not only a gathering place for the assembly but a place of encounter with God by engaging all the senses through use of art, plants, banners, colors, smells, and symbols.
- Ministers of the environment
 - honor the liturgical seasons through the design and décor of the sanctuary and worship space
 - maintain the cleanliness and physical state of the church architecture and art
