

## **SPECIAL PROGRAMS**

### **Grades 5 - 8**

**We Believe** program helps children to live out their faith and lessons on social justice through multiple activities. Children and families put their faith into action through prayer, projects, and reflections.

**E Inc.:** Using hands-on science as a springboard, the program engages students across city neighborhoods in real-time action projects that are stimulating, important, and directly linked to their “e” inc. science subject. Students study current environment challenges and come to appreciate how individuals can both affect local and global challenges and also support good outcomes.

**Coast Guard Mentoring Program:** Wednesdays after school for middle school.

**Over the Bridge Outreach Program** with the North End Waterfront Health Center and Harvard-Kent School

**Community Service:** Class and school-wide service projects are held throughout the school year.

**Field trips** in Grades K4-8 twice a year enhance classroom learning.

**Guidance Counselor** services provided through Boston College.
