

Corpus Christi Health Office

Dear Parent, Guardian:

First and foremost I want to thank you the parents for your continued efforts in helping us to try and control the spread of the Covid Virus. You are all amazing.

As we go forward into the New Year I have just a few reminders.

This virus is still a real threat to us and we need to remain vigilant. I know how difficult it can be to try and keep our children from interacting and socializing, especially with our older group. But just as we have a responsibility to our school community, so do our parents and students have a responsibility to their school.

If your child attends Corpus Christi in-person, please be extra mindful of their travels and social interactions. Remember whatever they do outside our school, may affect the school. Social interactions and gatherings outside their “group” should be avoided.

We all hope and pray for better days ahead and a return to “normal” for all of us, especially our children. For now, we still need to have these restrictions in place so we can continue to keep Corpus Christi open.

Thank you, again, in your continued effort to help us keep Corpus Christi open. Our greatest pleasure is seeing them healthy and happy every day.

Warmest regards,

Ms Donna Skinner, R.N

Corpus Christi School Nurse
