Working to Stay Safe This Holiday Season

Dear Corpus Christi School Families and Parishioners:

To date, Corpus Christi School has done well in its attempt to keep our staff and children safe during this pandemic. That is largely due to the overwhelming cooperation and communication from our teachers and our parents. Thank you for that.

As we enter the Christmas season, we must remember that we must stay even more attentive and more diligent so that none of us have to spend the holidays isolated and in quarantine.

We are still in the peak of this second wave of the pandemic, but we can get through it if we continue to do our part.

We ask that all in person students continue to complete the Cleared4School app daily and continue to answer honestly. If there is any question or concern, keep your child out of school for the day and notify the office.

Everyone is within their right to get tested and many have for various reasons. We applaud that, and have no issue with families getting tested even if it is just out of safety precautions. We do, however, ask that you please notify the school if you choose to have your child tested. We also respectfully request that any student tested, for whatever reason, be switched to virtual until the test results come back. Again, these are just extra measures to further the safety of our school and err on the side of caution.

Finally, this past week has worked well. Any issues that may have come up during the Thanksgiving break related to Covid-19 has not put our students and staff at risk because we have not been in the building and in contact of each other for over a week. As a result, we are considering doing another all virtual week of education the week of January 4th. We will notify you soon with confirmation on that, but it is safe to assume that that will be the plan moving forward.

Thank you for all of your cooperation and communication to date. Stay safe.

Sincerely,

A handwritten signature in black ink, appearing to read "Jason Feliciano".
