Principal Letter: February 26, 2020

"Giving is not just about making a donation. It is about making a difference."

- Kathy Calvin

To All the Members of Our Corpus Christi School Family,

Today marks the last school day for the month of February. It's hard to believe that we have completed six months of school and are already approaching the month of March.

It has been an interesting 26 days. It began with Catholic Schools Week, consisted of several wonderful opportunities to donate, included numerous awards and even saw us have to switch to virtual as a whole school more days than any other month. As always, I want to thank you for your communication, collaboration, cooperation and participation through all of it. We truly have had a successful six months of school because of the teamwork of all of our Corpus Christi School family.

I want to thank and congratulate all of you for your wonderful participation and donations this month. We were able to provide food and items to multiple parishes thanks to our Soup-Or-Bowl competition. Even with snow days shortening our competition week, we were able to donate over 2,740 cans/items to those in need. That's an amazing feat and a large challenge to beat next year during our Soup-Or-Bowl 2. We also raised a good amount of money for the American Heart Association and provided numerous items for the Animal Shelter Drive.

I also want to congratulate Corpus Christi School for the numerous awards and accolades our team members received this past month. Mr. Falletti was awarded the Cherri Brinley Outstanding Educator Award by Space Center Houston. Several of our 8th grade students were inducted into the National Junior Honors Society this month. Gabriel Robayo was named the 2020-2021 Corpus Christi School Outstanding Catholic Graduate for the Archdiocese of Newark. And incredibly, Corpus Christi School was named the 2021 Most Loved Private School by Hulafrog.

We've accomplished so much together already. We've been able to adjust to virtual days and snow days due to building needs and the wintry weather. We got through another round of MAP Growth testing. We will continue to fight through the dangers of this pandemic as a team and continue to strive for ways to make our students and staff learn, grow and most importantly, smile.

Next Friday marks the last day of the second trimester. Let's look forward to warmer weather, the final trimester of the year and hopefully better, safer days. We are all hoping for an ability to lift some of these restrictions, provide more opportunities for togetherness and end our year on a strong, positive note. In the meantime, let's all continue to give what we can and give our best because it truly does make a difference.

Stay safe and God Bless,
