

Mr. Connor Adams - Math/Social Studies
1st Year Teacher

Hi all! My name is Connor Adams and I am the math/social studies teacher for middle school here at Precious Blood. This academic year will be my first full year teaching as I was the math teacher at the middle school level this past spring. I graduated with a Bachelor's of Science in Mathematics from the University of Saint Francis - Fort Wayne in 2020 and a Master's of Arts in Teaching also from the University of Saint Francis - Fort Wayne earlier this year.

At Saint Francis, I played baseball for the University for four years and prior to that, I was at two junior colleges, Kellogg Community College (2015-2016) for a year and a half then Ancilla College (2017) for a semester before transferring to Saint Francis. Over the summers, I coach baseball for a travel organization called the Indiana Eagles. If you are interested in playing travel baseball for the Eagles, let me know! Starting this fall, I will be an assistant baseball coach over at Fort Wayne Carroll High School. As you can probably tell, I love baseball, whether it is coaching, watching, or just talking about it, baseball is by far my favorite sport.

Along with enjoying baseball, I love Marvel movies and tv shows and am a huge nerd about it. I have seen the MCU (Marvel Cinematic Universe) at least three times through. My favorite movie throughout all 24 of the MCU movies is, Avengers: Infinity War. My least favorite would have to be Thor: The Dark World. I completely recommend watching all the movies if you have not yet already seen them.

I just recently moved up to Fort Wayne permanently from Noblesville, Indiana where I was born and raised. I have an older half sister and a younger brother who is getting ready to begin his freshman year at the University of Saint Francis - Fort Wayne. I have a 13-year old beagle mixed dog named Stormy back home in Noblesville.

I am excited and ready to begin the school year and get to know all of your children as we make our way throughout another fun academic year!
