*Jesus said, "Amen, I say to you, if you have faith the size of a mustard seed, you will say to this mountain, 'Move from here to there,' and it will move. Nothing will be impossible for you."* Matt 17:20

*Just as faith the size of the smallest mustard seed can move mountains, YOUR monetary gift can make a BIG difference!* The current pandemic has affected the educational landscape for our students, but our Catholic schools have demonstrated creative efforts and grace to face these new challenges. Over 3,100 Catholic school students in our diocese benefit from a holistic education that focuses on formation, spiritually, emotionally, socially, physically, and academically.

Help ensure all children have the opportunity to enjoy a Catholic school education by supporting our Catholic Schools Tuition Support Collection. ## The Deacon's Corner

### Defend Against Cyber Scams

I am departing from the normal Deacon's Corner again today, as I did a year ago, to warn you about scams that could ruin your upcoming holidays. I was prompted to do this because recently I received a text message supposedly from Father Jerry asking me to make some purchases for him that he was giving to a sick man in the hospital. I agreed and we exchanged a few more text messages. In the final exchange I told him I was checking out with the items from Wal-Mart and he gave me delivery instructions. He said "May God bless you for all you are doing." I thanked him for the blessing and said I was now going to report him to the police.

During the past few days I began receiving emails, texts and phone calls from questionable sources concerning my credit cards and other financial information. They identified themselves as the U.S. Government, banks, and credit card companies. These fraudsters are using us into making money.

#### **Beware and keep your information safe...protect your information.**

Fraudsters pose as credible companies "phishing" for your information. Do not speak to them. Do not respond to any such emails. Immediately contact the source they say they are representing and report all suspicious calls or emails or texts. These fraudsters seeking personal information are doing so for their personal gain and do us personal and financial harm.

Here are a few practices you can adopt to protect yourselves:

- Passwords are the first line of defense against cybercriminals. Do not use the same password for multiple accounts and don't make them simple. These are for your protection.
- Monitor your accounts regularly, daily if possible, for any suspicious transactions and report unauthorized transactions immediately...and never give out your checking account number located the bottom of your checks.

### Deacon's Corner Cont'd.

- Stay alert for phishing attempts. Email fraud especially spike during the holidays. Their email addresses can give you a clue whether or not they are from the source they say they are.
- Beware of 800 callers. You don't have to answer those calls. Let them leave a message, which most rarely do.
- Do some personal investigation to find out more about protecting you against cyber security threats...consider programs like Kubikey, a multifactor passwordless authentication for the internet.
- Above all...be aware and **PROTECT YOURSELVES!**

**For a safe and happy holiday season...Deacon Loris**
