REQUIRED LETTER OF NOTIFICATION-ASBESTOS

St. Anne School has had asbestos management plans prepared for our school building. These plans are available for your inspection Monday thru Friday during normal school hours at the School or Parish office.

Periodic surveillance/inspection was conducted at the school for the conditions of asbestos. Accredited inspectors not only check the condition of asbestos, but reassess operations and maintenance procedures that will keep this material in good condition.

Should you have any further questions, you may contact Mr. Michael Ogg, who is our designated person for asbestos.
