WELCOME TO THE WAY2WORK

A Path to Better Employment for Job Seekers

Enter a program that cares and nurtures, one designed to assist both active job seekers and those who may need additional support before they are job-ready. Our open program’s approach places you into the proper “lane of service”, so you get the best opportunity for better employment. Each lane has a flexible set of activities that are based on best practices from leading community partners.

LANE 1 – Express

Are you job-ready and qualified for a role in today’s labor market? We can help you create the right resume, improve your presentation, interviewing and job search skills for a successful outcome.

LANE 2 – On-Ramp

The skills enhancement workshops will help you more forward. Together, we can assess and improve your soft skills and job readiness. You will earn employers trust and respect for bettering yourself.

LANE 3 – Road to a New Career

We can help you identify and obtain the training or certification to improve your future. Consider sector assistance, such as healthcare, customer service, and IT. Ask about timing and services.

A WARMer Way

The Way2Work program is offered by WARM, a Westerville institution founded in 1972 to provide support and assistance to the surrounding communities. Every day we help individuals and families, from all walks of life, with a hand-up, not a hand-out.
