

Saint Hilary of Poitiers  
Incoming Seventh  
Graders Summer Math  
Assignment

***Dear (New) Seventh Graders,***

Congratulations on completing sixth grade!  
Welcome to Seventh Grade Math!

This year has been quite different than we are all use to. I know you have all worked very hard this year and I am so excited to have you in class next year! This summer, I am asking you to complete a math packet that will keep the skills you learned this year fresh so that you are ready to go for next year.

In class, I had each of you create your math packet that went home in your yellow folder. This packet includes Lesson 49 – 66 from the sixth grade Simple Solutions book. Each student is required to complete the packet of math problems.

- The math packet is due the first day of school. Please come to school with the completed packet.
- Please make sure you complete all problems.
- Please make sure you show all of your work.
- Please make sure that all of your work is done in pencil.
- This is a graded assignment.

I have listed a few resources that may be useful if there is a topic that you may be having difficulty with.

If there are any comments, questions, or concerns, please feel free to email me at [tyaegel@sainthilaryschool.com](mailto:tyaegel@sainthilaryschool.com). I hope that you have a wonderful summer and I look forward to seeing you in September.

Happy Summer!!  
Mrs. Yaegel
