

PARISH SURVEY OVERVIEW

Beauty Ever Ancient Ever New
St. Martin of Tours Capital Campaign

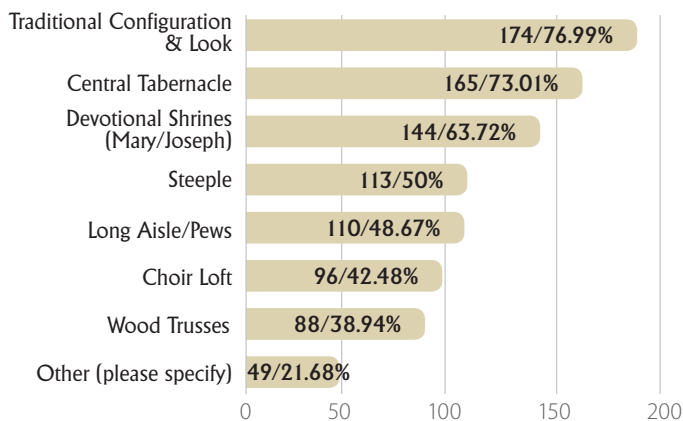

As you may be aware, following the overwhelmingly positive results from our spring 2018 planning study and the parish's desire to move forward with a capital campaign for the construction of a new church, leadership at St. Martin of Tours went back to the people to learn what they want from their new faith home. They gathered opinions by conducting a parish-wide survey and hosting focus groups. Thank you to everyone who participated in the survey or offered their thoughts at the focus groups.

Here are the results of that survey, as shared in our Nov. 11 (St. Martin of Tours Feast Day) Information Session.

- Parish leadership received 226 survey responses from parishioners who invested an average of eight minutes providing this valuable input.
- The feedback assisted in establishing some priority of values for the project and provided questions and concerns for leadership to address with planning and formation.
- The results helped establish our diocesan-approved church concepts, the foundation for moving forward with the *Beauty Ever Ancient, Ever New* Capital Campaign.
- We are truly grateful to those parishioners who invested their time on behalf of St. Martin of Tours to contribute to the planning process at this important early stage.

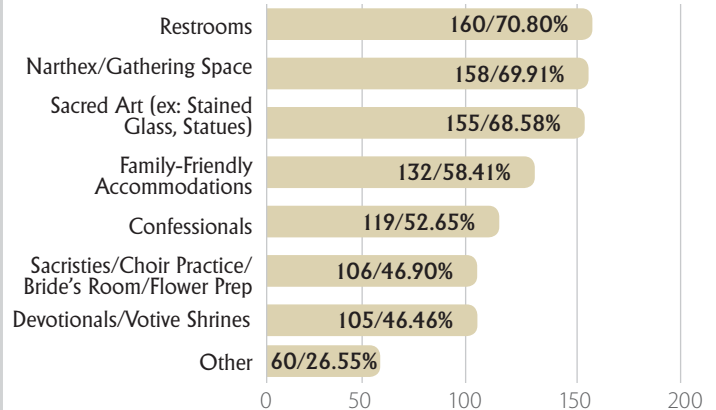

FAVORITE ASPECTS OF THE CURRENT CHURCH

Which qualities of the existing church are your favorites?
