

Training for a Safe Environment for Children

Every person who works with children in the parish is required to take an initial Safe Environment training course and a follow-up refresher course every five years. A background check is conducted each time a course is taken.

Courses are offered online only. If you have not taken Safe Environment training or need a refresher course, please go to www.cmgconnect.org. The initial course is "Protecting God's Children" and you will be asked to set up an account before taking the course. The refresher course is "Keeping the Promise Alive".

If you have questions, please contact Mary Haddox or email the parish office at office@reginacaeliparish.org.

Thank you for volunteering at the parish!
