#### From the Bishop: Schools Special Collection

In 2018, there were 82 school shooting incidents in the United States, the highest number since 1970. Shootings that occur in schools are rare events relative to other acts of gun violence. However, mass casualty events in schools can have a profound impact that pervades every aspect of school, family, and community life for many years. During Catholic Schools Week, January 27 – February 2, I am asking all parishes to take up a Catholic Schools Special Collection to help ensure school safety. This collection is a response to the growing need to upgrade the safety of our school buildings and will help to supplement the steps we are already taking to improve security.

*This special collection will take place during the weekend of January 26-27th at each parish.*
