

“Thanks for the info and inviting me and all of us be a part of the incredible work you are doing!”

"The first year we did a Baby Shower, there was a need for snowsuits. A mother and father and their three small children came in, arms loaded with snowsuits and faces beaming. Every year, Mary brings three snowsuits, Sally knits blankets and outfits, Eileen gets exquisite clothes from a local boutique, Ethel shops all year, Abe writes a big check, and Natalie, who is 96, brings lovely flowers from her garden.

This year we needed non-fun baby lotion, bottle brushes, diaper rash ointment, etc. As usual, people came through with what we requested.

It makes people very happy to be able to help young mothers who are giving their babies life! Before and during every shower, so many people thank me for giving them the opportunity to help."
