

Light of the World

My dear brothers and sisters in Jesus Christ,

The star is associated with the light. This Christmas invites us to follow the star. The star being Jesus. **He** is the real **light** that came to this world. When **Jesus** was born, a **light**, a **star**, showed up in the darkness. When Jesus died, another light, the sun lost its light in the middle of the day. It shows **us that Jesus** is the **light** of this world and our lives. If we think that we are in darkness with our pains and our tragedies, we must turn to **Jesus** our **light** and our life. The darkness of our life will turn into a bright light. If we move away from **Jesus**, even if we think we have everything, our light is surely to turn to darkness. So, the determining factor of light in our lives is nothing external for us, but the presence or absence of **Jesus**.

Dear Friends, let this Christmas be a time to invite **Jesus** again to our lives and let us follow Jesus, the light of our lives .

Wishing you a wonderful Christmas.

Fr. Paul Thunduparampil C M I
