

## VACCINATION SITES

If you have a child 12 years and older the Pfizer Vaccine is the one you want to get for them. It is the only one approved for children. The Johnson and Johnson vaccine is not considered effective against the Delta variant so have not listed where to get those.

All the above information originated from the  
Kentucky covid website at:  
<http://www.ky covid19.ky.gov/>

go to”vaccines” then click on the “find COVID-19  
Vaccines” enter your zip code. When the map comes  
up click on it to zoom in and find the area you need to  
look, click on the numbers and that will tell you where  
it is then click on “more information”

There are more than listed.
