

## EAGLE SCOUT PROJECT AT RESURRECTION

Our High School parishioner, Patrick Williams, is a Scout from Troop 50 here in town. He is conducting an "Eagle Scout Project" here at Resurrection Parish. He will be renewing the storage building (referred to as "the barn"), a former horse stable, located behind the rectory/auxiliary offices. This is a main storage area for so much of our seasonal decorations and equipment. Parts of the flooring, over the original dirt floor, is unstable, filled with holes with dangerous deterioration. The windows need repair & the door needs to be replaced. Patrick will lead this project to replace the flooring, door and windows in an effort to renew th building and make it safe for continued use. Patrick will be in the Narthex the weekend of April 24-25 with the plans for his "Eagle Scout Project" and will be accepting donations to move this forward. (Checks should be made out to "Resurrection".) Thank you for your encouragement to Patrick Williams and your support for this "Eagle Scout Project" which will be of great benefit to the Parish for years to come.
