## **Little Flower COVID Policy Regarding Athletics**

Consistent with the AOP guidelines and protocols for school activities in general:

1. Regardless of vaccination status, students may participate in all outdoor athletic activities (contests and practices) without a mask, however, any student athlete may wear a mask.
2. Regardless of vaccination status, students participating in all indoor athletic activities (contest and practices) must wear a mask.
3. When practicable, social distancing should be maintained both outdoors and indoors.

In consultation with the AOP, Little Flower will review its policy and make appropriate modifications as circumstances dictate.
