*Heavenly Father, Bless our families and school*

*That your power, love and truth give us strength we need to face any circumstances.*

Dear St. Stephen Parents and Families,

Regrettably, due to the water situation in Huron Township, we, as well as other schools in Huron Township, will be closed until Friday. Originally, I was going to contact you on a day-to-day basis, but I know that you have to plan for child care. If there is any change, I will certainly let you know.

According to the DPW, two tests are needed twenty-four hours apart beginning Tuesday and ending Thursday. It is hoped that there will be zero contaminants and school can commence on Friday. Attached is a recent note in the Huron Hub about the water situation.

It also seems that parents have been trying to call our school number and finding it busy. We are contacting AT&T to fix the problem. Very sorry about that, especially during these times!

Finally, in the recent Remind about St. Stephen closing, you received an attachment that had nothing to do with my note. I am still getting used to Remind and usually get assistance (like, which button do I push?) from my colleagues.

Picture Day has been scheduled for Wednesday, October 20th.

Take care and God Bless our school and families!

Joe Monte
