

Armchair Travel

A special read this year is Leave Only Footprints: My Acadia -to-Zion Journey through Every National Park by Conor Knighton. In his book Knighton chronicles his visits to all 50 of the National Parks in one year. His descriptions are part history, travel journal, personal diary, and scientific fact. His accounts of the National Parks closest to us in Hayward - Voyageurs (Minnesota), Isle Royale (Canada), Theodore Roosevelt (North Dakota Badlands), and Wind Cave (South Dakota) were very enlightening. For those traveling in the US, this book will be your guide to the discoveries to be found in our National Parks. Knighton reported on several visits which were aired on the CBS Sunday Morning Show. Those reports can be viewed on YouTube at <https://www.youtube.com/watch?v=3KcYwuRIQMw>.
