

Like Golf? Read The Wager by Kerry Casey

The newest book by regional author Casey will appeal to golfers and non-golfers alike.

The story centers on an incident that provoked, a multi-million dollar match between a well liked greenskeeper/former sportscaster, and a prima donna Pro-tour golf player. The story really develops when Max meets Zoey the second-ranked woman's player and she agrees to help him improve his swing before the match. He is already a great putter and she needs to improve her putting if she is going to move up to first place. They need privacy for their training and they come to Hayward. The Golf Pro at the Hayward Golf Club is a childhood friend and can be counted on to be discreet when they are on the course. This David and Goliath story has likable characters. The wife of the Hayward Golf Pro drives a snow truck in the winter. The story line is positive and shares many tips for golfers who want to improve their game. (Check out how to train with a Hula Hoop). This writer doesn't play golf, but I still loved this warm spirited book and it made me want to get out and at least walk a golf course.
