## TREASURES FROM OUR TRADITION

In recent years, there has been remarkable progress in drawing persons with disabilities into full celebration. Now it is generally accepted that worship places need accommodations such as ramps or elevators, large-print materials for those who are sight-impaired, and perhaps even an assisted hearing system or signing in American Sign Language. American Sign Language is not merely English translated into movement, but a distinct language with its own grammar, syntax (word order), and vocabulary. For this reason, the American Catholic bishops have approved American Sign Language (ASL) as an official language of the liturgy.

Celebrating liturgy in our own language (the vernacular) means that liturgy must be accessible to all languages and cultures. The fact that Mass is celebrated this weekend in some places in total silence, but with the full participation of deaf people praising God in the movements of their hands, and sometimes even with a priest who is deaf, is nothing less than the Church being faithful to the image of Jesus, who made the deaf hear and the mute speak. Remember too that deafness is an invisible disability, and that there may well be people in your parish who are quietly yearning for Mass to be signed for them in ASL.
