Understanding the need for “likes”

Children and teenagers are spending more and more time connecting with their friends on social media. Research shows that people are hardwired to find social interaction and communication rewarding, and on social media, rewards come in the form of “likes.” Although apps like Instagram have recently moved to change how “likes” are seen on photos and videos, the drive to post something “likeable” is still there, and many users may feel the need to test boundaries to drive them up. It’s important for parents to understand the enticing nature of these apps, and to talk to their children and teens about internet safety and social media use. Comprender la necesidad de los “likes”

Los niños y adolescentes pasan cada vez más tiempo conectándose con sus amigos en las redes sociales. Las investigaciones muestran que las personas están programadas para encontrar gratificante la interacción social y la comunicación, y en las redes sociales, las recompensas vienen en forma de los “likes”. Aunque aplicaciones como Instagram han Avanzado para cambiar la forma en que se ven los “likes” en las fotos y los videos, el impulso para publicar algo “agradable” sigue presente, y muchos usuarios pueden sentir la necesidad de sobrepasar los límites para aumentarlos. Es importante que los padres de familia comprendan la naturaleza atractiva de estas aplicaciones y hablen con sus hijos y pequeños y con los adolescentes sobre la seguridad de Internet y el uso de las redes sociales.
