

Week of **Sep 13, 2021**

What a great first week of school we had! I hope your child enjoyed it as much as I did. I am looking forward to getting to know everyone better and to continue enjoying each other's company!

Announcements for this week:

If you have not handed in your parent "homework" as we were calling it, please do! This can all be found on the top of our website's homepage; "Back to School Paperwork"

WHERE FAITH AND EDUCATION MERGE WITH EXCELLENCE

St. Francis of Assisi School

Students will be starting their specials this week. **Gym is on Wednesdays** so please have your students in their gym uniforms that day!

This week, we are going to begin some of our subjects. We will begin ELA, math, religion, and science.

In ELA: We will be working on some baseline work such as reading various passages and writing so I can gather some insight. We will start our first story on Monday, the 20th. This means that the first spelling and grammar test will be on Wednesday, the 29th and the first reading comprehension test will be on Thursday, the 30th.

In Math: We will begin chapter 1; “Hundreds”

In Science: Saving Fred- scientific method

In Religion: We will begin chapter 1; “God Sends Us His Own Son.” Our religion chapters are short. Tests are usually weekly. The first test will be determined as we work through this chapter slowly since it is the first!

Please let me know if you have any questions at all! I’m here to help. Have a great week!
