Teaching the Whole Person

Saint Pius X Catholic School, as part of the parish mission, provides all of its students with an educational opportunity for spiritual, intellectual, and physical development rooted in Catholic values, moral responsibility, and academic excellence. Gospel Values of respect, responsibility, compassion, teamwork and honesty support the Gospel Guide to foster an environment where all students are respected.

Catholic Identity: To Promote Growth in Faith

The students' growth in faith is the central purpose of our school. In an environment reflecting peace, mercy, justice, and love, children are challenged to achieve their highest potential. They are encouraged to live their faith in word and deed in their family, church, and larger community.

Pedagogical Methods: To Inspire Excellence

We hold high standards of academic excellence in which Gospel values are integrated in everyday activities. School personnel consider each child's spiritual, academic, social, emotional, and physical well being. We use multiple instructional strategies and materials to aid in the students' success.

Classroom Structure

Primary grades (K-2) and elementary grades (3-5) have teaching assistants in each classroom. Middle School teachers (6-8) share a teaching assistant and provide student support through our resource department when needed.

Parental Relations: To Foster Mutual Support

We recognize parents as having the primary responsibility for the formation and education of their children. Following the teaching of the Catholic Church, we will support, but are unable to assume, the role of parents. We expect parents to maintain communication with the school and support the school community.
