

## Introduction – Wedding Feast at Cana

The states of water are: solid, liquid, gas and...?

- You guessed it right! It's wine. You didn't know that water could do that? Well, pull out your bibles and turn to the wedding feast at Cana. This is in the New Testament, found in the book of John, chapter 2, verses 1-12.

There are many beautiful things to pick up from this reading.

- A great one, is that miracles are happening. This isn't something that was only done back in the day. Jesus is still in the miracle business today.
- Another is on being obedient. Mother Mary shares the importance of our obedience to His word (John 2:5) and Jesus in turn is obedient to His mother, because it is after her request that this miracle happens.
- A third, but not the last, is that God's timing may not always align with our timing. So if you ever think to yourself, "When is it my time?" or "How much longer do I have to go through this?", we are reminded in this passage to be patient and wait on the Lord, because many times God saves the best for those who wait on Him. (John 2:12)
